BITTING BROS.

We Are Shaking Up Things.
Last week our sales were a large per cent over the corresponding week's figures in 1890. That tells the story, doesn't it? We are creating new records every day and shaking up things all around. How do we account for the growth? Oh, there's no mystery about it. It beats A. B. C., for simplicity. All there is of it is this: We give the greatest possible value for the least possible money and we tell the whole truth and nothing but the truth about everything we sell. Just now we are giving some extra good value in men's and boys' overcoats, also children's from two and a half years up.

Come and see us.
BITTING BROS.
One-Price Clothing, Hatters, Furnishers.
126 & 128 - Douglas Ave.

Men's Underwear, our sales say goods and prices are right.
DAVIS & FOUTS

PUBLIC SCHOOL FLAGS.

St. Joseph, Mo., Dec. 2.—The school board last night made an appropriation of \$500 to buy flags to be floated over every school house in St. Joseph. The board declined to accept a flag tendered by the Patriotic Sons of America, on the ground that such an action would cause discontent among the citizens. The vote appropriating the money to buy the flags was unanimous.

ONYX, MARBLE, IRON, WALNUT, OAK and NICKLE CLOCKS.

Clocks of every style, variety and price.

DR. TERRILL, SPECIALIST.

The above is the out of the instrument, used by Dr. Terrill in the examination for Catarrh and all Nose and Throat diseases. It enables the Doctor to show the patient the condition of the affected parts, and in finding the source of the trouble. The Doctor will guarantee a cure in every case of Catarrh he treats. Every man who has Catarrh should have this examination at once. Instruments and medicine furnished.

Dr. Terrill has just returned from Chicago, where he has been taking a special course in the treatment of Catarrh, and all other diseases of the Throat, Nose and Lungs. He is a specialist in the treatment of Catarrh, and all other diseases of the Throat, Nose and Lungs. He is a specialist in the treatment of Catarrh, and all other diseases of the Throat, Nose and Lungs.

WASHINGTON.

THE CLAIMS OF THE LEADERS IN THE RACE FOR SPEAKER.

A Movement Under Way to Throw Springer's Vote to the Lone Star Candidate.

Treasurer Nebeker Reviews the Operations of the National Treasury During the Fiscal Year.

Ex-Speaker Reed's Contested Quorum to be Considered by the Supreme Court—The Weather Bureau's Report for the Month of November—The Steel Cruiser New York Launched With the Usual Ceremonies.

WASHINGTON, Dec. 2.—There seems to be practically no change in the speaker's race situation this afternoon. All five of the candidates continue to express cheerful confidence. There are no signs of any withdrawal from the first ballot, and there is nothing yet to demonstrate the ability of any one of the candidates to transfer his strength to another in the event of his withdrawal. Mr. Crisp, Mr. Springer, Mr. Mills, Mr. McMillin and Mr. McMillin's friends continue working for an early termination of the contest. They will say that they expect to see a break among the supporters of Messrs. Springer, McMillin and Hatch after the first or second ballot. At Mr. Crisp's headquarters it was said that three votes had been transferred to him from the doubtful column. Mr. Mills is hopeful of a considerable accession of strength to come between now and Saturday.

There seemed to be a general disposition this afternoon to admit that Mr. Crisp was at present doing exceedingly well, but his opponents insisted that he had reached the limit of his strength and would be unable to obtain a majority of the total vote. Mr. McMillin and Mr. Springer say that they will keep in the fight to the end, believing that the contest between Messrs. Mills and Crisp will have no result so far as the election of speaker is concerned. Mr. Crisp, however, expresses a similar opinion and hope.

During the afternoon estimates were made of the strength of the several candidates. Mr. Crisp's friends counted between ninety-three and ninety-five votes, which they said were certain to be cast for George's representative on the first ballot. A counter estimate was made by Mr. Springer's friends, who counted nearly seventy-five votes.

Work today has been directed against Springer's force, and reports for current day are in favor of Mills. Up to 6 o'clock, however, these reports could not be verified, and Mr. Springer said that he was holding his own.

Mr. McMillin's canvass is progressing smoothly, and there are a good many representatives who think exceedingly well of him, but who will vote for other candidates until some change develops in the situation.

Two delegations from New England, Wisconsin and Michigan arrived here tonight, and there is quite a little nervousness exhibited as it is thought that a change is more likely to occur without than with the aid of the new arrivals at any time prior to the actual balloting.

Mr. Dalton of Indiana, who was a candidate for the speakership, has withdrawn. His withdrawal was announced by Mr. Clark of Missouri, who was clerk of the house during the fifteenth congress.

Upon the withdrawal of Mr. Dalton, four members of the northern disunion delegation decided to support Mr. Springer.

THE NATIONAL TREASURY.

WASHINGTON, Dec. 2.—Hon. E. F. Nebeker, treasurer of the United States, has submitted his annual report, in regard to the operations and condition of the National Treasury, to the House of Representatives.

The report shows that the ordinary revenues of the government for the past fiscal year were \$32,612,447, or \$10,408,055 less than those for the year before. The extraordinary receipts, however, of the amounts paid in premiums on bonds purchased, were \$35,877,884, an increase of \$5,098,198.

The surplus revenues were \$10,408,055, or \$10,408,055 more than those for the year before. The total revenues were \$43,020,502, or \$43,020,502 more than those for the year before.

The reduction effected during the year in the principal of the bonded debt and in the circulating notes which cannot be reissued amounted to \$116,509,773, which required an expenditure of \$129,494,494, including the premiums on the redemption of the bonds.

This sum is made up by taking \$39,751,701 from the reserve in the treasury in addition to the surplus revenues of the year. The consequence of this reduction in the amount of the bonded debt and in the circulating notes was an increase of about \$5,000,000 on both sides.

The reduction effected during the year in the principal of the bonded debt and in the circulating notes which cannot be reissued amounted to \$116,509,773, which required an expenditure of \$129,494,494, including the premiums on the redemption of the bonds.

This sum is made up by taking \$39,751,701 from the reserve in the treasury in addition to the surplus revenues of the year. The consequence of this reduction in the amount of the bonded debt and in the circulating notes was an increase of about \$5,000,000 on both sides.

THE NATIONAL BANKS.

WASHINGTON, Dec. 2.—The forthcoming report of the controller of the currency gives full information in relation to the organization, supervision and condition of national banks during the year ended October 31, 1891. It shows that during this period 133 new associations were organized, aggregating an aggregate capital of \$2,700,000, thus exhibiting a growth largely in excess of the annual average for the past year. During the year the number of banks in operation was 3,891, having a capital of \$1,875,752,862. The last report of the controller shows that the number of banks on Sept. 30, 1891, at that time 3,677 associations reported, with an aggregate capital of \$1,743,570, a surplus of \$22,500,000 and undivided profits of \$108,246,674. The gross deposits, including amounts due to banks, are stated at \$2,039,180,188, and loans and discounts at \$1,868,000,000. In both items there is an increase over any previous date. These banks hold \$174,907,500 in United States bonds, of which \$130,635,000 were in secured circulation, and also \$188,514,076 in specie, \$27,615,038 in legal tender notes, and \$15,720,000 in United States certificates of deposit.

The number of failures the present exceeds any previous year. Attention is called to the necessity for legislation more clearly defining the duties of directors, and also to the necessity of further restriction upon accommodations which may be lawfully afforded to officers and directors by way of loans and discounts.

The controller also discusses the causes of the monetary stringency of last year and the issue of clearing house loan certificates in New York. He also discusses the causes of the failures recorded are looked upon as the result of the collapse of the speculative spirit which has been generally prevalent for the last few years. The controller also discusses the causes of the failures recorded are looked upon as the result of the collapse of the speculative spirit which has been generally prevalent for the last few years.
